

As a patriotic American, I am deeply disturbed by the decision of Sinclair Broadcasting Group to force it's affiliates to air an anti-Kerry propaganda film shortly before the election, and even more disturbed that they are attempting to frame this propaganda as "news." This shift from news to propaganda is clearly not in the public interest, and is an attack on our country's democratic process. Please do all you can to resolve this outrageous abdication and abuse of trust on Sinclair's part. The future of our democracy depends on a fair and balanced media.
